

DID YOU KNOW YOU CAN BOOST YOUR LIFT'S PERFORMANCE WITH DIGITAL SERVICES?

Digital upgrades for lifts designed to improve user experience and make your life easier.

[Quick Guide to KONE Digital Services](#)

WHAT ARE KONE DIGITAL SERVICES?

Whichever way you look at it, you know as well as we do that life as a building owner or facility manager is busy, requires organisation and carries great responsibility. You need equipment that works safely and securely—all the time, to keep tenants happy, save on costs and create a smooth working environment for your team.

KONE Digital Services are fully digitised upgrades for new or existing equipment that simplify life as a facility manager or building owner. Our solutions are designed for a more intelligent service that helps equipment work harder and better for longer. By harnessing the power of AI and cutting edge analytics our solutions offer peace of mind with a positive business impact, helping to make your building the best it can be.

HOW CAN KONE DIGITAL SERVICES MAKE YOUR LIFE EASIER?

Our digital service upgrades are designed to provide cutting edge solutions to your real world problems. Whether it's gathering data to help you better understand what needs servicing—and when, or helping you communicate remotely with tenants or service personnel when you can't make it to site. With the help of KONE Digital Services you can create a safer, more hygienic environment for users and rest easy in the knowledge that you're investing in a longer, more efficient life cycle for your building.

READY FOR A STRESS-FREE FUTURE?

The best buildings run on equipment you don't need to worry about. Let's take a closer look at how KONE Digital Service upgrades improve user experience and increase long term building value

HOW ABOUT A DATA-POWERED HELPING HAND?

Make more informed decisions about long term asset management

- Use data to create more accurate budgets
- Get detailed insights into what's working and what needs a new lease of life
- Improve service scheduling for a facility free from unplanned disruption

FANCY A MORE EFFICIENT EXPERIENCE?

Let's lay the foundations for improved building performance

- Access equipment information with ease
- Schedule maintenance quickly and systematically
- Monitor traffic to reduce congestion for smoother building operations

NEED TO GET YOUR MESSAGE OUT?

Whether it's with your team or tenants, staying in touch is key

- Communicate with users remotely
- Display messaging in multiple buildings and lifts simultaneously
- Improve in-ride experience with information and entertainment upgrades

WANT EASIER ACCESS FOR EVERYONE?

Improve accessibility in your building for happier tenants and a smoother working day

- Reduce user waiting times and lobby congestion with tailored traffic optimisation services
- Decrease hygiene risks with touchless lift calling
- Schedule maintenance outside of busy periods to maximise tenant satisfaction

INTERESTED IN UNLOCKING THE POTENTIAL OF YOUR BUILDING?
